Force Protection In USAREUR

USAREUR SNCOTP

Agenda

1. Red Team Operations
2. Anti-Terrorism Training
3. In Transit Security
4. Central Region Bus Movement

Mission Statement

On order, USAREUR Force Protection Red Teams conduct unannounced assessments of USAREUR installations to identify vulnerabilities based on likely terrorist threats and recommend procedural and programmatic fixes to the installation commander in order to strengthen USAREUR's Force Protection posture.

Red Team Objectives

- Identify and explore likely terrorist options
- Identify exploitable areas of installation AT procedures and physical structure
- Recommend corrective actions to the installation commander

Methodology

- Replicate terrorist pre-operational surveillance
- Test installation's ability to maintain access control on closed installations
- Identify exploitable vulnerabilities of off- installation facilities

Red Team Conduct

- Red Team Assessment not announced in advance, but notify commander at beginning of assessment
- Intent not to embarrass commanders, but to identify weaknesses
- ROE
- Not offer solution
- Out brief and final Report

66th MI Support

- MI Dets will brief local HN agencies on Red Team activities
- Contact MI Det and MLO to resolve HN issues
- Locals MI Det will provide AOR brief
- Team check in with MI Det upon arrival and departure
- Maintain frequent contact with MI Det during assessment
- Storage of classified material, computer support, etc.

ROE

- Strict ROE to preclude problems with guards or police
- Letter of explanation in event of arrest
- If challenged, stop and submit to security personnel
- Fake ID / passes – Give it up if challenged

Significant Vulnerabilities

- Installation Gates
- Installation Fences
- Awareness

Other Observations

- Access Control
- Lightning

USAREUR SNCOTP
